Experience

Salary.com / Software Developer

MAY 2022 - SEPTEMBER 2022, REMOTE

As a software developer in my recent job, I was responsible for crafting adaptable web pages and landing pages in accordance with provided design mockups. My tasks encompassed the vital aspect of ensuring these pages exhibited seamless responsiveness on both desktop and mobile platforms, addressing any user interface glitches that arose, and seamlessly integrating essential features and new pages into pre-existing websites. I leveraged a diverse toolkit of tools and programming languages, including HTML, CSS, JavaScript, jQuery, Bootstrap, MVC, ASP.net, and C#. My work environment was further enhanced through the use of tools such as VS Code and Visual Studio, allowing me to effectively fulfill these responsibilities.

Accenture / Associate Software Engineer

JULY 2021 - MARCH 2022, PHILIPPINES

As an Associate Software Engineer at Accenture, I bring a unique blend of technical expertise and Salesforce Administration. Managing and customizing Salesforce instances to meet specific business requirements, ensuring optimal functionality and user satisfaction. We use APEX, HTML, CSS JQUERY, JS Salesforce Lightning to meet customize requirements for the business requirements. Additionally, I utilized my skills in Salesforce troubleshooting to diagnose and resolve any issues customers encountered in the system.

Education

Bulacan State University / Bachelor of Science in Information Technology

AUGUST 2016 - SEPTEMBER 2020, PHILIPPINES
